Prequalification

Ref.: International, open Tender for Programme–Rural Electrification Programme Component II On-Grid Electrification

Tenderer: Electricity Supply Enterprise (ESE) of the Ministry of Electricity and Energy Power Distribution Department

Project Measures: In order to improve the electricity supply for people living in rural areas, ESE, a Myanmar state-owned institution, and KfW Development Bank intend to improve the electricity supply in households through investment in grid-related infrastructure. The main focus of the programme will be to connect a large number of households, the sustainable improvement of power supply to rural consumers and reliable daily electricity supply and usage.

Under the Myanmar-German Financial Cooperation, the Federal Republic of Germany through KfW Development Bank would provide a loan of up to 30 million EUR to the Myanmar Government for the installation of power grids at 66 kV, 33 kV and 11 kV level including required sub-stations and transformers.

The overall budget estimated for consulting services (Technical Assistance, TA) is up to 1,300,000.00 EUR.

The development objective of the Rural Electrification Programme Phase II On-Grid Electrification is to improve the living conditions of rural population in target areas (Southern Shan State: Districts Taunggyi, Linkhae, Loilen), to connect new households to the distribution grid thus facilitating daily electricity usage and to sustainably improve the power supply to rural consumers.

Requested Services: This advertisement for prequalification refers to the services to be rendered and financed under the TA. The Consultant shall mainly cooperate with ESE in the successful implementation of the programme.

The duties shall comprise but are not limited to assistance in the following areas:

- Support of ESE in the framework of various measures during the implementation of the Programme such as development of design concepts, procurement of goods including preparation of bidding documents and evaluation of submitted bids.
- Monitoring and supervision during project implementation including verification that the equipment supply, the civil works and installation contracts are fulfilled in accordance with their stipulations.
- Capacity Development, basic and advanced training measures covering topics like planning and design of power grids as well as technical trainings such as substation testing, underground XLPE cabling, health & safety measures, etc..
- General programme support, including reporting.

The prequalification of experienced Consultants is subject to the regulations contained in the „Guidelines for Assignment of Consultants in Financial Cooperation with Partner Countries“ (see www.kfw-entwicklungsbank.de). The contract will be awarded to an independent Consultant firm with proven experience of at least 5 years in the electricity sector (planning and design of distribution grids, procurement, financial assessment, capacity development, as well as monitoring and impact assessment). Experience in Myanmar and in the region as well as a minimum annual turnover of 800,000 EURO is required.

The complete prequalification notice can be obtained in electronic form from:
